

New Facilities to Better Serve Our Membership

Within the next month, the Greater Michigan PMC will be moving into new office space which will give us larger accommodations to offer services to our association members.

Having just completed the purchase of two suites of offices in a Condo Office Complex, we are excited to be working on minor renovations.

The recently purchased Greater Michigan PMC Headquarters facility is located at 58 Parkland Plaza, Suites 500 & 600. The new office complex is still in Ann Arbor, just off Jackson Avenue, less than 10 minutes away from the current PMC location.

One of the many highlights of our new office facility will be a room for Education Services that will allow for an extensive Lending Library for our Contractors and their employees. In addition, we will be in a position to host Education Programs on-site and to make our room available for contractors to conduct company meetings.

We will maintain our current phone numbers:

Greater Michigan PMC: 734-665-4681

Greater Michigan National Certified Pipe Welding Bureau Chapter No. 42: 734-665-5483

Greater Michigan MSCA: 734-665-5051

Greater Michigan PCA: 734-665-4681
