

Handicapped and Elderly Assistance To Service Our Neighbors

Twenty-Fourth Year of Greater MI MSCA/ UA 190 HEAT'S ON

Through the combined efforts of both the Greater MI MSCA and UA Local 190 Plumbers/Pipefitters/Service Technicians, the local HEAT'S ON Project completed it's 24th year, in our local area, and our 14th year with our Ferris Chapter. These homes, thanks to the efforts of MSCA and UA Local 190, will be safe and warm this winter. The program continues to install smoke detectors and carbon monoxide detectors for those who don't have

them. If they do, we change their batteries and make sure they are in good working order. The program has a number of return clients. This year we had a number of follow-up projects that required small repairs.

It's a great relationship to build with the community.

Greater Michigan MSCA's Ferris State University Student Chapter proudly held their fourteenth annual HEAT'S ON Project.

The Chapter has participated with Greater Michigan MSCA and UA Local 190 for the past 15 years. They enjoyed their participation, but felt they wanted to do more for Mecosta County where Ferris State University is located. The Chapter took on the monumental task of scheduling a project for their hometown, working with the Mecosta/Osceola County Family Independence Agency. Calls were made to have volunteers participate from MSCA contractors and chapters throughout the state. Trucks came from Ann Arbor, Hutzel Plumbing & Heating, Johnson Controls, and T. H. Eiefert in Lansing. Chapter Advisors Sandra Miller and Associate Director Diane Calmeyn, from Greater Michigan MSCA, Chapter Advisor Mike Feutz, FSU and pictured left – John Kleber, Mecosta County Department of Human Services was also in attendance.

Everyone, service techs and students alike enjoyed the opportunity to help those in need.
