Congratulation to the UA and UA Training Department

Congratulations to UA General President William Hite and to UA Director of Training Chris Haslinger and their staffs. This 62nd UA Instructor Training Program was an unqualified success. The staff of the Training Department, as always, have done an exceptional job.

As President Hite stated "For more than six decades, the Instructor Training Program has been providing the highest level of education to United Association instructors through the Instructor Training Program, which is now online. We train the trainers in order to ensure that our members have access to the skills they need to be successful in the marketplace.. . While creating a skilled workforce is increasingly challenging, our comprehensive training curriculum keeps our piping professionals competitive and valuable to our contractors."

UA Local 190 and the Greater MI PMC know that it is an honor to be a very small part of this week. The community is tremendously happy to have you here and always look forward to the time they have to spend with you.

The Michigan State Pipe Trades and representatives of the Michigan Mechanical Contractors Association sincerely hope your stay has been a happy one.

Have a safe trip home and we'll see you again next year.
